

reapply sunscreen

on the job

when you get wet or sweat

at midday

use long sleeves,
a wide-brimmed hat,
sunglasses,
shade,
and sunscreen

Funding for this project was provided by the National Cancer Institute,
Grant #CA210259.

Check the UV Index daily

- Higher number = greater UV
- Take more precautions on high UV days (6-11+)

PRECAUTIONS

Work or Rest in the Shade

- Bring portable shade with you.
- Look for natural shade nearby.
- Vehicles can provide some shade.
- Attach shade devices to heavy equipment

Wear Sunglasses

Cover Up with Long Sleeves & Long Pants

Wear a Hat

- Wide brims provide better protection.
- Attach a flap to the back of a hard hat.

Apply Sunscreen and Lip Balm

- Use SPF 30 or more.
- Apply in the morning & reapply at midday.
- Slop it on! Use more than you think you need.

AND...DETECT SIGNS OF SKIN CANCER EARLY.

Examine your Skin

- Watch for moles and other spots.
- Report skin changes to your doctor.

Do not depend on sunscreen alone. Combine sunscreen with hats, sunglasses, long sleeves, long pants, and shade to protect against the sun's UV radiation.
